CAREER OBJECTIVE

To use all my software skills to the best of my ability for the betterment of the organization and to develop those skills further with experience which I will gain during the period of my association with the organization so as to make myself able to achieve a desirable position.

SYNOPSIS

- ❖ Overall **7.1 years** of working experience on Web Development and Automation.
- ❖ **5.1 years** working for **Yethi Consulting Pvt, Ltd.** on **Web Development – Tenjin Tool** and **Automation** on Core Banking applications Finacle and Flexcube, etc,.
- ❖ **2 years** worked for **Technetico Soft Solution Pvt, Ltd.** on **Web Development.**

AREAS OF EXPERTISE

- ♣ Working experience in **Java (Core and Advanced)** Programming Language.
- ♣ Good knowledge of working on **Oracle** database environment.
- ♣ Good working experience on Web Technologies like **HTML, JavaScript, JQuery, Servlet, JSP.**
- ♣ Having real time development experience of **Spring Framework** and its sub components Spring Core, Spring Data, Spring MVC, Spring REST, Spring AOP, Spring Security.
- ♣ Having work experience with **Hibernate ORM Framework.**
- ♣ Good knowledge of using Web Server like **Apache Tomcat.**
- ♣ Working knowledge of **Eclipse IDE** development tool kit, **Maven** build tool and **SVN** to checkout.

PROJECTS DONE

1. Tenjin – Test Automation Suite

- ❖ **Tool Name** : Tenjin
- ❖ **Duration** : Feb, 2016 – till date
- ❖ **Technology** : Java, Servlet, JSP, Oracle, MS SQL, Jenkins, Rest API, OAuth
- ❖ **Role** : Offshore Product Developer
- ❖ **Team Size** : 8

- ❖ **Tool Abstract** : Tenjin is a Test Automation Tool owned by Yethi, which will help in automating banking applications like Flexcube, Finacle, LOS, CRM and so on. This tool having two major component Learning and Execution. Both the components are handled in adapter. Learning will go through the application screen and get all the field information and share the template in form of Excel and user can fill data on learning template and give it for Execution, which will give results in dashboard along with screenshot, validations. And this tool having many other features like Scheduler, Test Management Integration, Defect Management, API Testing, Mobile Testing.
- ❖ **My Contribution** : As a product developer, understood the complete architecture of Tenjin application. Have worked with Tenjin API to queue a task in Jenkins continuous integration to do the testing after application deployment. Implemented features like Metadata for data

migration, OAuth API Security implementation for API Testing, Print screen utility for automation and reports for execution. Also implemented or change the features as per the client requirements.

2. Finacle(Core Banking Solution & CRM) - Automation

- ❖ **Application Name** : Finacle
- ❖ **Duration** : April, 2016 – till now
- ❖ **Technology** : Java, Selenium & Tenjin Adapter
- ❖ **Role** : Offshore/Onsite Product Developer
- ❖ **Team Size** : 2(max)
- ❖ **Clients/Projects** : SBM, ENBD and Ujjivan
- ❖ **My Contribution** : Automated Finacle application using Tenjin for various projects. Adapter for Tenjin will be configured in such a way to handle all the screens of Finacle application. Handled most complex screens on CRM for automation. Have direct communication with client to gather the information for automation and the status will be published on day basis to client and team members. And support the testing team to execute all their testcases and fix the issues in adapter and Tenjin. Having knowledge on different modules in Finacle such as Customer, CASA, FT, TT, Loans, Trade Finance.

3. POCs, Demo & Training - Automation

- ❖ **Application type** : Banking
- ❖ **Duration** : Feb, 2016 – till now
- ❖ **Technology** : Java, Selenium & Tenjin Adapter
- ❖ **Role** : Offshore/Onsite Product Developer
- ❖ **Team Size** : 1
- ❖ **Clients/Projects** : BSP, RBL, SBM, NBK and ENBD.
- ❖ **My Contribution** : Headed many POCs in offshore/Onsite, as per the scope shared by clients, screens will be automated and given demos to the various teams from client side and addressed for all their queries on Tenjin application and its capabilities. Direct interaction with client to gather requirements and implemented those all in Tenjin application/adapter. Act as the bridge between client and offshore team for all the conversations to make POC/ Demo to be successful. As a senior Developer have given training to the new resources and all their queries are addressed and help them to achieve their goal.

4. Water Treatment, US

- ❖ **Project Name** : Water Treatment
- ❖ **Duration** : July, 2013 – Jan, 2016
- ❖ **Technology** : Spring, Hibernate and JSP.
- ❖ **Role** : Offshore Developer
- ❖ **Team Size** : 2
- ❖ **Project Abstract** : This is an advanced online reporting application designed for WaterTreatment companies & their representatives. The flexibilities of the application provide a unique look & feel for each company all while providing a simple well documented and explained interface. The system includes different modules as Tests, Panels, Users, Customers, Reports, Charts and Tools etc.
- ❖ **My Contribution** : Gathering the requirements from the client and developing the modules. Have taken the responsibility of doing unit testing and bug fixing. And finally deploying the latest code in server and letting the client know that features are deployed for their use.

EDUCATION CREDENTIAL

- 2006 – 2007: SSLC – 76.4%** - State Board of Tamil Nadu
TSS Boys Higher Secondary School, Pappalapatti.
- 2008 – 2009: HSC (Maths with Computer Science) – 80.3%** - State Board of Tamil Nadu
TSS Boys Higher Secondary School, Pappalapatti.
- 2009 – 2013: Bachelor of Engineering (Computer Science) – 73%**
Adhiyamaan College of Engineering, Hosur.

CO – CURRICULAR ACTIVITIES

- ❖ Attended workshop on “**Wireless Security**”.
- ❖ Attended two-day National Level workshop on “**Multimedia-designing and animation**”.

KEY SKILLS

- ✓ Effectively collaborated with multiple teams and solved complex problems and resolve technological issues
- ✓ Have good communication, presentation skills and the ability to express my views.
- ✓ Capability to lead a team and achieve the organizational goals.
- ✓ Held multiple responsible positions in previous organizations, school, college and family for various activities.
